MEDICAL CAMPS

The Homoeopathy Chikitsa Kendra organize Homeopathy Health/Medical/Awareness Camps annually at different villages and locations to make homeopathic healthcare services accessible to a wider population

OUR VISION

At Homeopathy Chikitsa Kendra, Shri Krishna AYUSH University, our vision is to become a center of excellence in homeopathic healthcare, education, and research.

We aspire to provide accessible, affordable, and evidence-based homeopathic treatment while maintaining the highest standards of patient care. Our goal is not only

to treat diseases but to improve the overall quality of life of every patient through holistic healing.

Over the coming years, we envision:

1. Expanding our clinical services to benefit a larger population.
2. Becoming a trusted referral center for chronic and difficult-to-manage cases.
3. Integrating clinical excellence with academic learning and research.
4. Promoting awareness about the role of homeopathy in preventive and holistic healthcare.
5. Training future generations of homeopathic physicians through practical clinical exposure.
6. Establishing a patient-centered healthcare model based on compassion, ethics, and innovation.

From starting with zero patient footfalls to serving around 60 patients daily, our journey reflects the trust of the community and our commitment to continuous growth. We aim to build upon this foundation and create a benchmark for quality homeopathic healthcare in the region and beyond.

OUR MOTTO

“Healing with Compassion, Serving with Excellence, Growing through Trust.”
